Polatechno Co., Ltd.

**Polatechno acquires RaySpec Limited, a specialist in X-ray detection and electronic pulse processing**

On Dec. 26<sup>th</sup>, 2017, Polatechno acquired the private company RaySpec Limited in High Wycombe, Buckinghamshire, United Kingdom.

RaySpec is a leading company of high specification Silicon-based Energy Dispersive X-ray Detectors and electronic pulse processing systems. The company design, manufacture and sell innovative Silicon Drift Detectors and pulse processing systems for research equipment in the X-ray analytical market sector.

Moxtek, Inc. in Orem, Utah, USA, or a company of Polatechno group, is a leading company of X-ray Tubes and Silicon-based Energy Dispersive X-ray Detectors, as well as inorganic polarizers, or ProFlux™, for LCD projectors. The company design, manufacture and sell X-ray Tubes and Silicon PIN Detectors for Hand Held X-ray Fluorescence analytical equipment. Polatechno intends to enhance its X-ray business with collaborative operation with RaySpec and Moxtek.
